100 YEARS UNITED: GENERATIONS OF IMPACT

LIVE UNITED.

Success By 6 aims to give every child in our community the best possible start in life. Children who enter kindergarten better prepared both socially and academically have proven to be more successful throughout the remainder of their schooling.

Given the economic circumstances of our Valley many children are missing out on an opportunity to attend pre-school or have the proper developmental education before they reach kindergarten. So the United Way of Youngstown and the Mahoning Valley launched Success By 6 in 2009.

This pre-kindergarten readiness program is thriving and continues to grow, impacting children as reflected in the 2019 results.

In 2020, Success By 6 has adapted to the restrictions placed upon schools by Covid 19. It offered mini-grants to 10 school districts who submitted proposals to prepare their students both virtually and safely in person.

- **+12 point average increase in pre and post test scores over the 4 week program**
- **50 classes at 25 school sites**
- **100% of parents surveyed are satisfied with the program and believe their child is better prepared for school**
- **64 hours of instruction with a licensed teacher in each classroom**

Whenever our area is in need, the United Way of Youngstown and the Mahoning Valley is always there. RISE UP to the challenge and join us as we heal and rebuild a healthier, stronger community together. Join the Fight. To live better, we must LIVE UNITED.
