PROGRAM

64 hours of
instruction
with a licensed
teacher

Success By 6 aims to give every child in our community the best possible start in life. Children who enter kindergarten better prepared, both socially and academically, have proven to be more successful throughout the remainder of their schooling.

Given the economic circumstances of our Valley, many children are missing out on an opportunity to attend pre-school or have the proper developmental education before they reach kindergarten. The United Way of Youngstown and the Mahoning Valley launched Success By 6 in 2009 to address these issues.

This pre-kindergarten readiness program is thriving and continues to grow, impacting children all across the Valley as reflected in the data collected over the past year.

In 2021, Success By 6 is re-inventing and shaping our programming to better serve our Valley's youth. Preparing students to be successful in the classroom as we return to in-person learning.

United Way of Youngstown
and the Mahoning Valley

Join the Fight.
Only when we are **UNITED** can we
make the greatest change.
